FLOOR DEBATE

April 10, 2002 LB 1085, 1309

that will strike some urban money out, which I don't like doing. I don't like a rural-urban split. That's been one of the things that I've tried to work against as we come in here. But if you look at this package, if you look at where the money is and what we've done to rural Nebraska with this, by cutting programs that come and affect our areas, I think that you have to say that this is...tends to lean toward the urban area and tends to hurt rural more, even though it's a broad cut for programs and actions all across the state. I think that we owe that to...I know that I owe that to my rural constituency and to the constituency of all of us across the rural part of the state. So I will support this amendment of Senator Stuhr's and I would ask your support for it too. Thank you.

SPEAKER KRISTENSEN: Senator Kremer.

SENATOR KREMER: Thank you, Mr. Speaker and members of the body. I know we have a lot of business ahead of us and I won't take much time but other than to say that I will support Senator Stuhr's amendment also to attempt to override the Rural Development Commission elimination. I was on board yesterday. I supported LB 1085 this morning and so it's not that I am trying to just pick out some things. This commission I think,
